Sand Dune Cross Country Ski Trail

This set of trails are about 11 miles west of St. Ignace, and offer many different levels of challenge to Cross Country Skiers. As the name implies the trails move through the sand dunes of northern Michigan all along the coast of Lake Michigan, clocking in at about 7.6 miles of trail for the most advanced trail, and about 1.5 miles for the easiest. Groomed for classic style cross country skiing, the advanced trails are full of steep climbs, and sharp turns through hard wood forests, while the easiest trails are the perfect place for beginners to learn and start. The Sand Dune Cross Country Ski Trail has ample parking and an outhouse available for use at the Trailhead. Click [here](#) for more information and [here](#) for Ski Trail Condition Reports.

What Is Web Accessibility?

Web Content Accessibility Guidelines (WCAG)

How To Make Your Website Accessible And Avoid A Lawsuit

The Americans With Disabilities Act (ADA) gathers all of the standards under Title II and Title III requirements, where:

- **Title II** requires all state and local governments, as well as governmental entities, to receive federal funding to provide access to their programs, services, or activities to people with disabilities
- **Title III**, which are guidelines that prohibit “places of public accommodations such as restaurants, hotels, movie theaters, museums, and hospitals from disability-based discrimination.”

Not complying with the ADA website requirements puts you at risk of a LAWSUIT. the number of lawsuits has increased over the past few years, and small to medium-sized businesses are currently some of the common victims.

AI Marketing Prompt

"In a minute I am going to ask you to write some copy for my business. This will include blog posts, social media captions, short form video scripts, and sales emails. Before we begin I want you to fully understand my business and customers. Ask me at least 20 questions about my business, customers, audience, and anything else you need in order to complete the tasks to the best of your ability."

Executive Director
Colton Trout
Bay Area Houston CVB

Before you begin:

Get the AI informed to provide you with the best results by using this initial prompt.

Create new chats for each exercise.

Remember that these are conversations that can build off inputs and results. The more AI has to consider in generating responses.

TIP: Consider making individual Chats for key destination verticals that you can use over and over! That way you're not starting from zero.

I am a meeting planner who is seeking to write some how to articles for my clients. Before we begin, I'd like you to ask me 5 questions so that you can better understand my business, my clients, and my goals.

1. **What types of meetings do your clients typically hold?** (e.g., conferences, board meetings, training sessions)
2. **What are some common challenges your clients face when planning meetings?** (e.g., staying on budget, finding the right venue, managing logistics)
3. **What is the level of experience your clients have with meeting planning?** (e.g., beginners, intermediate, advanced)
4. **What is your preferred format for these how-to articles?** (e.g., blog posts, checklists, infographics)
5. **What are your main goals for these articles?** (e.g., educate clients, attract new clients, establish yourself as an expert)

By understanding your business, clients, and goals, I can tailor the "how-to" articles to be more relevant and helpful to your specific audience.
